

Datric is a single source solution provider for all your EDI and B2B requirements.

Datric provides a suite of products and services that addresses all of your EDI and B2B needs. From hosted solutions to on-demand consulting Datric can help you lower the cost and risk of conducting B2B transactions.

Our hosted EDI solutions eliminate the worry about security and availability of your EDI systems. Our data center provides 24 x 7 x 365 availability and monitoring and is staffed by skilled engineers to ensure the integrity and security of your data. These solutions are fully-scalable and can be implemented quickly.

DX-Trader is a web-based document delivery solution that allows your business to seamlessly integrate with non-EDI trading partners. This solution allows your partners to access an intuitive web-based portal to create business transactions with no additional software needed. To your partners it looks like a simple internet transaction, to you it is an EDI transaction with all of the benefits of EDI.

Our translation services provide automated document delivery and receipt from any format to any format.

Sometimes all you need is an experienced hand to guide you through planning guide creation, trading partner certification, or any other B2B task. We provide on-demand consultants to help you with small and large jobs alike.

Datric is a single-source provider for all of your EDI and B2B needs. Let our experienced staff help you design a solution that is right for you.
